

LU LINUX – DAY 6 ASSIGNMENT 3

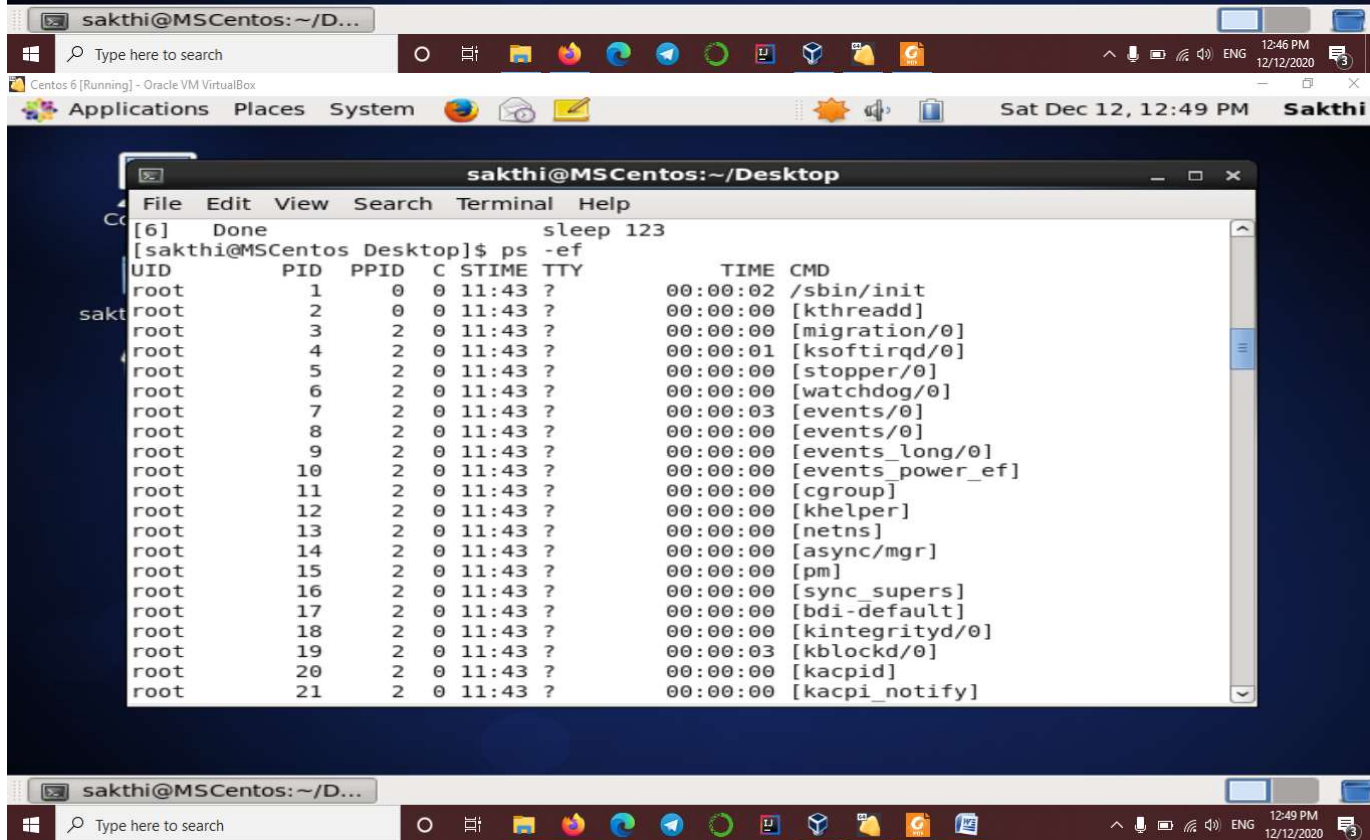

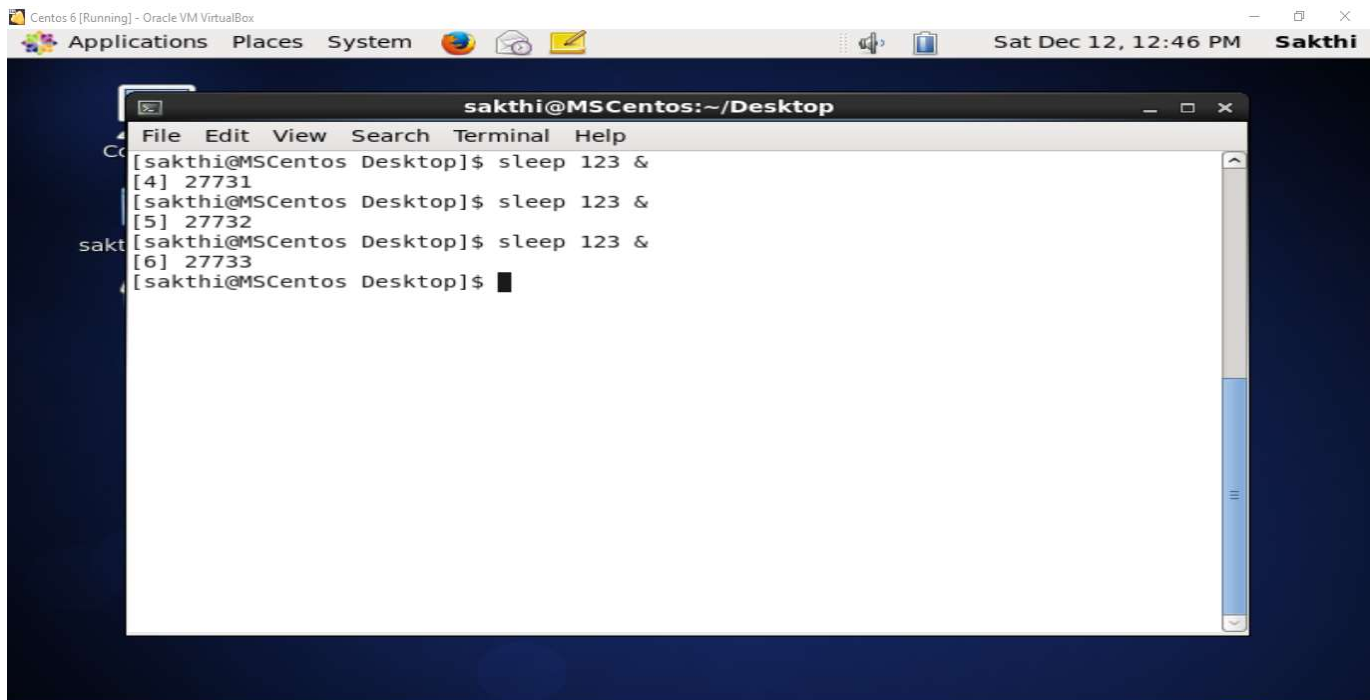

The image displays two screenshots of a Linux terminal window, likely running on a virtual machine. The window title is "sakthi@MSCentos:~/Desktop". The terminal shows the following commands and output:

```
[sakthi@MSCentos Desktop]$ ps -e | grep systemd
[sakthi@MSCentos Desktop]$ ps -ef | grep systemd
sakthi 27708 27687 0 12:42 pts/0 00:00:00 grep systemd
[sakthi@MSCentos Desktop]$ ps -e | grep systemd-logind
[sakthi@MSCentos Desktop]$ ps -ef | grep systemd-logind
sakthi 27715 27687 0 12:43 pts/0 00:00:00 grep systemd-logind
[sakthi@MSCentos Desktop]$
```

The second screenshot shows the same terminal window with additional commands and output:

```
[sakthi@MSCentos Desktop]$ ps -e | grep systemd
[sakthi@MSCentos Desktop]$ ps -ef | grep systemd
sakthi 27708 27687 0 12:42 pts/0 00:00:00 grep systemd
[sakthi@MSCentos Desktop]$ ps -e | grep systemd-logind
[sakthi@MSCentos Desktop]$ ps -ef | grep systemd-logind
sakthi 27715 27687 0 12:43 pts/0 00:00:00 grep systemd-logind
[sakthi@MSCentos Desktop]$ tty
/dev/pts/0
[sakthi@MSCentos Desktop]$ ps -ef | grep pts/0
sakthi 27687 27685 0 12:41 pts/0 00:00:00 /bin/bash
sakthi 27718 27687 0 12:43 pts/0 00:00:00 ps -ef
sakthi 27719 27687 0 12:43 pts/0 00:00:00 grep pts/0
[sakthi@MSCentos Desktop]$
```

The terminal window is titled "sakthi@MSCentos:~/Desktop" and shows the output of several commands. The first screenshot shows the output of `ps -e | grep systemd`, `ps -ef | grep systemd`, and `ps -e | grep systemd-logind`. The second screenshot shows the output of `ps -ef | grep systemd-logind`, `tty`, and `ps -ef | grep pts/0`.
